A member response to the Editorial in the last News Letter

After reading the newsletter, just a couple of things that may or may not be helpful for the AGM:

1. I think we should try to make it easier for people to fly. I am aware that if you don't have your 'wings' it can be rather difficult to acquire them. You can turn up on a Saturday morning and not be able to find an instructor. Apparently most of them tend to fly during the week. So I would like to suggest that we try to get more of our competent and experienced flyers qualified as instructors, and perhaps some kind of roster to make sure that on any Saturday or Sunday you have a good chance of finding one. (Or is it done by appointment?)

2. Who is that man I was just talking to? I don't know I've only been a member for 6 months. This is for me, with my very poor memory for names, a common conversation. Name tags have been suggested. But how about every new member gets a baseball type cap embroidered with HMAC and the member's name. Perhaps instructors could get one of a different colour. I'm not suggesting that wearing them would be compulsory, just encouraged. (Perhaps broad brimmed floppy hats would be more appropriate.)

Cheers, David Kettlewell

Scale fun fly in at a Kelly Field June 6,7 or 8th whatever the first good day.

This is an event for every scale aircraft including ARF's. Not a strict event, if the model looks like a full size aircraft then it is good to go.

Just like an ordinary flying day at the field. Scratch built models will receive bonus points. Aircraft will be judged on the way they fly compared to the full size. Prizes for, best take off, best landing, best stuff up, pilots choice and model of the meet.

Any questions ring Bill Jennings at 62951941. So come along and enjoy the day.

Regards. Bill
